

Rotunda Memorial Garden

MEMORIALS

ROTUNDA MEMORIAL GARDEN

Roses, as symbols of immortal love, devotion, friendship and peace, are a beautiful way to memorialise and remember your loved ones. These popular rose memorial options are beautifully incorporated into the cemetery's central Rotunda Garden, allowing for family and friends to sit close by as they gather to reflect and remember their loved ones. Companion positions are available for up to two (2) interments.

Lasting memories, peaceful places.

EMERALD CEMETERY

A LITTLE GEM

Emerald Cemetery, originally known as Macclesfield Cemetery, has historically serviced the regional farming community of the district. Sheltered among natural bushland, the cemetery provides a small sanctuary for native wildlife as well as being home to the soothing song of native birds.

Emerald/Macclesfield Cemetery is known for its distinctive wrought-iron gates in Art Deco style, and for the Rotunda that forms the central point of the cemetery grounds.

Lawn and Monumental Graves

BURIALS

MONUMENTAL GRAVES

These graves allow for the installation of a solid and impressive stone monument that covers the length and breadth of the grave in place of grassed lawn. Usually made from granite or marble, these monuments are created in conjunction with your choice of stonemason.

LAWN GRAVES — THE CHOICE IS YOURS

Whilst all graves at Emerald cemetery are technically capable of having a full monument, many families prefer the option of having a lawn grave. The cemetery allows for the modern option of lawn burial set amongst the native landscape and historic headstone monuments. Lawn graves have a concrete beam on which the plaque or headstone can be mounted, as shown in the photograph above. Plaques may also be attached to a concrete or granite desk in small, medium or large sizes.

This variation in the range of monuments adds to the unique ambience of the Emerald Cemetery.
